Château des Corrèges

Since three generations, wine grower's job is an institution in the family VIDAL. Yesterday Louis and Aimé today jeans-luc and tomorrow Pierre immortalize the tradition.

It is in the Carmelite's small Hamlet on the Municipality of Sabran (D6) in kilomètres 7 of Bagnols on Céze, approximately kilomètres 40 of Nimes, Avignon, Orange, Alés that are elaborated red or pinkish wines of the Castle of Corrèges.

Is 125 meters in height, an argilo ground sandy, a south exposure of hillsides, a terrace cultivation, favoring the period of sunshine, make of this soil a place of prédilection for the vineyard.

Worried of respecting the environment and of favoring the natural character of the wine, we opted for a reasoned culture, a limitation of the returns and the production, and a permanent maintenance of vineyards to preserve an always healthy vineyard.
